VISIBILITY AND CONNECTIVITY FOR A SUSTAINABLE FUTURE

Welcome Message from President of MSR

Dear Esteemed Guests,

On behalf of the Malaysian Society of Radiographers (MSR), it is with great pleasure that we welcome you to the **55th Annual Scientific Meeting and General Meeting 2025**. This year's theme, **"Visibility and Connectivity for a Sustainable Future,"** reflects our collective commitment to advancing the field of radiography and radiotherapy through enhanced collaboration and innovation.

Since our establishment in 1970, MSR has been dedicated to promoting the science and practice of radiography and radiotherapeutic technology in Malaysia. Our annual meetings have served as pivotal platforms for knowledge exchange, professional development, and fostering camaraderie among radiographers across the nation.

Throughout the conference, we encourage you to engage actively in the sessions, workshops, and discussions. These platforms are designed to inspire, challenge, and equip us all with insights that will propel our profession forward. Let us seize this opportunity to learn from one another, explore new frontiers, and strengthen the bonds within our professional community.

We extend our heartfelt gratitude to each of you for your participation. Your presence enriches this gathering, fostering an environment ripe for the exchange of ideas, experiences, and the forging of meaningful connections. The diverse perspectives and expertise you bring are invaluable as we navigate the evolving landscape of medical imaging and patient care.

We also acknowledge and thank our speakers, sponsors, and volunteers whose dedication and support have been instrumental in bringing this event to fruition.

May this conference be a catalyst for enduring collaborations and a testament to our shared vision for a sustainable future in radiography and radiotherapy.

Warm regards,

Ts. Sawal Marsait
President of MSR
